12220 Fillmore Room 141
West Olive, Michigan 49460
(616) 994-4530 • Fax (616) 994-4529

DRAIN USE PERMITTING PROCESS

A Drain Use Permit is required whenever working within the drain, or drain easement. Examples of activities requiring a permit include, but are not limited to: installing, replacing or extending culvert crossings, adding discharge pipes to the drain, directional drilling.

The permit application must be completely filled out, and accompanied with a detailed plan or sketch outlining the proposed activity and a copy of the contractor's insurance certificate naming the Drain Commissioner and the drainage district as additionally insured. Your application will not be processed without the required information. There is a **\$50.00** permit fee required when applying for a drain use permit.

Remember: Issuance of the Drain Use Permit does not alleviate you from obtaining other necessary permits.

If you have any questions or comments regarding the Drain Use Permit or application, please contact this office at (616) 994-4530.

Mail or drop off all necessary information to:

April Abbatoy
Drain Const. & Main. Inspector

I certify, as applicant, I am the legal owner of the property or easement holder, for which this permit will serve or I am the owner's authorized agent.

I agree to do the above work; to pay any costs for inspection, labor and/or material that may be required to perform said work, abide by the permit restrictions; and restore the surface to its original condition. If I do not pay such costs as invoiced, these costs will be assessed against the property.
