Re: Eagle Ridge Drain Construction Project

I would like to express my apologies for the workmanship demonstrated and any inconvenience incurred throughout the course of this drain project. Please be advised that the work completed does not meet the standards or expectations of my office nor does it fully adhere to the drawings and specifications prepared by the Engineer. I am working with the engineer, Ryan McEnhill, Eng., Inc., to ensure that the project will be completed and constructed in accordance with the engineer's design. Please be assured that corrective actions will be taken to rectify the problems, but please be patient and keep in mind that due to the time of year final stabilization will not take place until Spring, 2019.

As always, please do not hesitate to contact my office with any questions and/or concerns.

Respectfully,

Joe Bush
Water Resources Commissioner
