

Hiawatha Drain Drainage District Sub-District

This map shows the Hiawatha Drain Drainage District Sub-District within the overall Hiawatha Drainage District. The petition submitted for the Hiawatha Drain was submitted by property owners within the Sub-District. We are currently unaware of any issues in the Drainage District outside of the Sub-District. If the petition is found necessary and an engineering review confirms that work is only needed in this Sub-District, then only property owners within the Sub-District will be assessed for those costs. Please keep in mind, though, that the petition applies to the whole Drainage District. If the petition is found necessary and an engineering review determines that work is required outside of the Sub-District, then assessments will be levied on all property owners within the Drainage District. Again, we are unaware of any issues outside of the Sub-District at this time.

-  Control Structure
-  Storm Drain
-  Drain District
-  Drain District
-  Parcel Address
-  River/Creek
