<b>19. Trauma Informed Care</b>	This course addresses the nature of trauma and its effects on people. Being able to provide trauma informed services to individuals receiving services is a crucial skill set for staff. Recognizing that an alarming majority of people receiving services have had trauma in their lives, it is staff's responsibility to work with them in a manner which supports and does not worsen the impact of previous trauma. Additionally:

- If through the Quality Monitoring Review or MDHHS Site Review deficiencies are noted in this area, additional training may be required.
- When applicable laws and/or regulations change CMHSP may require a training update

Specialized Res: Staff working independently or as lead workers need to complete all training prior to any direct care assignment.

For Self-Directed Arrangements, please see training requirements documented in the Self-Determination Agreement.
