HEALTH ALERT: Elevated PFAS Levels at Robinson Elementary

Dear Colleagues,

With the announcement yesterday of elevated PFAS levels in the drinking water at Robinson Elementary School you may receive (or may have already received) questions from your patients concerning the health effect of PFAS. The State of Michigan has put together an excellent resource on PFAS which can be found at: <https://www.michigan.gov/pfasresponse> . If you have additional questions on PFAS or the evolving situation at Robinson Elementary School please contact me at 616-494-5548 .

Sincerely,

Paul A. Heidel, MD, MPH
Medical Director
Ottawa County Department of Public Health
