

# Covid-19 Infection Control Protocol

Ottawa County Schools 2021-2022

Kacie Elzinga, RDH, BS

- Provider will take temperature prior to entering school and record this in daily log
- Enter school with mask
- Upon entering treatment space-wash hands, glove up and disinfect all hard surfaces
- Cover floor with plastic covering
- Set up dental pod or in small spaces cover all walls, shelves, books etc with disposable table covers
- Use laminated data forms and dry erase markers during screenings and sealant placement
- Disinfect forms/markers after each student
- Puraclenz air purifier will be used during treatment
- Prior to getting student- the provider will put on facemask, face shield and lab coat to transport student from class to treatment space
- Two students will be called at a time; one student will sit at least 6 feet away on the outside of the dental pod with their mask on
- Students will wear a mask to treatment space
- Students will have their temperature taken, with a contactless thermometer, prior to entering treatment space and this will be documented on their chart
- Students will use hand sanitizer prior to entering dental pod
- Provider will wash hands or use medical grade hand sanitizer before and after gloving up
- Glasses will be provided for the students and disinfected after use
- Student will receive paper work for parents-this paperwork will be completed outside of dental pod and handed to student
- Disposable lab coats will be a one time/student use and will be disposed after each student or washable lab coats will be changed after each patient and placed in a biohazard bag after use
- A suction system (Isolite) will be placed in students mouth during treatment to reduce aerosols
- Provider will disinfect, chair, dental pod and allow time for aerosols to dissipate after each student
- Student will use hand sanitizer upon exiting dental area and walk back to class while wearing a mask
- When finished at the school, provider will pack up and thoroughly disinfect space used for treatment
