

Monthly Reportable Disease Summary

January 2008

Ottawa County Health Department
12251 James St
Holland, MI 49424

The data in the Monthly Disease Report are provisional, based on current reports in the Michigan Disease Surveillance System (MDSS) made by local health departments. The MDSS is a dynamic, continually active system: counts of disease are constantly changing as cases are investigated, confirmed as cases, or ruled out as not meeting the case definition. The Monthly Disease Report reflects this constant activity as the numbers may slightly fluctuate each month. Therefore, it should be kept in mind that numbers in the Monthly Disease Report are NOT final and should be used only to generally monitor trends over time. Suspected, probable or laboratory confirmed cases of the reportable condition are included in the report.

Specific data requests and questions should be directed towards:

Brian Bieber MS, MPH
OCHD Epidemiologist
