September 8, 2020

Chair Bergman and Board of Commissioners:

Please accept the Fiscal Year 2021 Annual Budget for your consideration. This budget was prepared in accordance with the State of Michigan Public Act of 1968 – The Uniform Budgeting and Accounting Act, as amended and County of Ottawa (County) financial policies. The proposed 2021 Budget is financially sound, balanced and responsible; which positions the County to meet both its short and long-term strategic goals.

The budget provides a road map of the County's efforts toward meeting its vision statement of being the place *Where You Belong*. The budget development aligns with the County Board of Commissioners Strategic Plan, keeping in mind the goals and objectives set in the plan. The budget document is a communication tool to assist the County in being accountable and financially transparent to the citizens and stakeholders. Lastly, the County budget process sets to maintain a consistent the level of services provided to the citizens.

The total recommended budget appropriations for 2021 is \$205,805,327 and is categorized in the following funds. The General Fund has budgeted an appropriation in the amount of \$92,959,748. The twenty-one Special Revenue Funds have a combined budget appropriation of \$105,541,950. The remaining budget is compiled of the Debt Service Fund and Capital Project Fund(s) that have appropriations of \$4,706,728 and \$2,596,901 respectively. More details about the changes in the budget for the revenues and expenditures from 2020 to 2021 are addressed later in this letter.

CURRENT BUDGET TOPICS

Several budget considerations have continued in the County's favor in the past couple of years as well as in the planning for the 2021 budget year. A few of these include a continued increase in the property tax value and favorable increases in health care expenditures.

The 2021 budget is balanced, with a planned use of reserves to offset department underspend, and with the proposed county operating millage at 3.9 mills, committing 0.30 mills to paying the unfunded liability of the Municipal Employees Retirement System (MERS) defined benefit plan. County programs

are funded at the same service level, all debt service payments are included, capital improvement plan, retirement plan and other benefit programs are fully funded.

The County's Financial Policies stress the importance of having a balanced budget, which means at the end of the fiscal year operating revenues plus planned use of fund balance match operating expenditures. To keep a conservative approach to estimating revenues without eliminating programs, the 2021 budget includes the following steps to balance the budget.

Annual Budgeted Transfers

- A \$500,000 transfer from the Ottawa County Insurance Authority (OCIA). The County contributed money to start the Authority in 1990, which has been fully refunded to the County. The interest earned through investing of this contribution is valued at \$5.9 million and is available to transfer to the County's General Fund, if needed. The last time this transfer was utilized by the County was 2005.
- 2. A \$625,000 transfer from the Delinquent Tax Fund. As of completion of the last audit 09/30/19, this fund has unrestricted net position of \$18.9 million, which provides the capacity to transfer funds to the General Fund. This, like the transfer from the OCIA, has been budgeted in the past, but has not been needed in recent years to supplement the General Fund.
- 3. A \$2.4 million transfer from the Internal Service DB/DC Fund. This fund was established by the Board to assist in the cost of closing the DB Plan with MERS. The budgeted transfer is to reduce the cost to the General Fund generated by the increase in the benefit rate charged to cover the payment to MERS for the unfunded portion of the DB plan liability. The amount of this transfer is calculated from the comparison in the General Fund (as well as the funds that receive funding from the General Fund) of the 2021 budgeted amount for this benefit rate to the 2018 rate.

Additionally, the Board of Commissioners has appropriated \$1m of committed fund balance to offset department underspend. This, and other use of reserves are planned use of Board committed or legally restricted funds. No use of unassigned fund balance is proposed.

FUTURE BUDGET CHALLENGES & ISSUES

Capital Infrastructure

When possible, the County of Ottawa has dedicated excess General Fund revenues to one-time expenditures such as capital infrastructure. In 2020, the Board of Commissioners authorized \$1.2 million transfer to the Capital Improvement Fund from General Fund fund balance in excess of the policy limit.

In addition, the 2021 proposed budget includes a \$600,000 contribution to the Capital Improvement Fund for current operating revenues; an amount equal to the amount in 2020. As the County transitions from building new structures, to maintaining existing infrastructure; consistent, ongoing contributions will be necessary. In recent years, funding for projects requires \$2.5-\$4.0 million annually.

Retirement Plan Funding

Closing and fully funding the defined benefit plan is a complex, multi-year challenge that the County continues to manage. A high-level summary of the actions to date is outlined below:

Year	Unfunded Liability (in millions)	Percent Funded	Actions
2010	\$32.0	83%	
			Board resolution establish intent to close DB plan and move new hires to DC plan
2011	\$36.7	81%	
			Establish DB Financing tool with \$4.6m
2012	\$43.8	79%	
			First new hire moved to DC retirement plan.
2013	\$48.3	79%	
			All new hires move to DC retirement plan
2014	\$23.9	90%	
			Issued \$29.6 million in pension bonds
2015	\$44.7	83%	
			MERS reduced interest rate assumption from 8.0% to 7.75%
2019	\$77.2	77%	
			MERS reduced interest rate assumption from 7.75% to 7.35%
			Board extended the amortization of the unfunded liability by 5 years
			Board committed .3 mil to the unfunded liability

Early 2019, Municipal Employees Retirement System (MERS) announced that the investment earning rate will be decreased from 7.75% to 7.35% when the 12/31/19 actuary report is completed; this will impact the County's contribution rate in Fiscal Year 2022.

In response to changes MERS made in 2015 and in anticipation of the 2019 interest rate assumption changes, the Board of Commissioners committed .3 mils to the closed defined benefit plan and extended the amortization of the unfunded liability by five years.

As we wait for the impact of the 2019 changes to be fully realized, we are monitoring MERS 2020 market performance. The current expected rate of return is 7.35% and any deviation (gain or loss) is spread or smoothed over five years. As of June 30, 2020 MERS Chief Investment Officer reported the portfolio performance of negative 2.93% net of fees. The MERS year-end is December 31st and any underperformance will negatively impact the County's budget for five years (FY2023-FY2028).

Total Revenues	193,348,942	202,189,420	8,840,478	

The overall projected revenues, excluding transfers, are projected to increase 4.37% or \$7,502,753. Below are further explanations for these changes.

Taxes

Taxes are based on an estimate of taxable value multiplied by the millage rate, but with the County's fiscal year ending on September 30th, special millages are collected in one tax year and county operating in the next.

County Operating millage are due September 2021; the 2021 tax year. The fiscal year 2021 budget includes a 3.5% increase in taxable values, basing revenue estimates on \$12.9 billion while the County operating millage remained 3.9 mills. The Board of Commissioners will officially take action to set the millage rate in June 2021.

Additionally, the County collects taxes for four special millages; Parks, Mental Health, E-911, and Roads. Dispatch and Roads, both component units, taxes received are immediately disbursed to the separate organizations.

Parks and Mental Health are special millages collected in December. The 2021 budget is for the year October 1, 2020 through September 30, 2021, therefore fiscal year 2021 operating revenue for Parks and Mental Health is based on the December 2020 tax bill. With 2020 taxable values established, tax revenue will increase 5.02% in fiscal year 2021.

Intergovernmental Revenue

Intergovernmental revenue is money that is obtained from other governmental entities (Federal, State, Local, etc...) to fund various programs throughout the County. This year the State of Michigan updated

the Uniform Chart of Accounts and included Local Community Stabilization Authority payment of \$1.5 million in this category, whereas in prior years it was budgeted and reported as tax revenue. The remaining increase of \$4.2 million is mostly Community Mental Health Fund, Substance Use Disorder Fund, and the General Fund.

In 2021, Community Mental Health (CMH) is expected to receive the second increase in Medicaid funding in an effort to more evenly distribute Medicaid funding throughout the state. Additionally, Medicaid enrollment is increasing and expected to increase through FY21, which will in turn increase the amount provided to CMH. All increases in this area were based off of conservative Lakeshore Regional Entity (LRE) projections.

CMH also received a System of Care grant and \$500,000 is budgeted in 2021. The focus of the grant is to connect providers of services for children and families with the intention of increasing effective family supports. This grant directs funds to staff and programs that strive to connect DHHS, Juvenile Court, CMH, Schools, and other areas servicing children.

In the General Fund, Planning and Performance Improvement is seeking grant funding to support two ground water initiatives. A monitoring network (\$750,000) to establish a network of groundwater monitoring sensors across a large portion of the County, in order to evaluate the critical conditions of our bedrock aquifer supply in real-time. Funds will be used for equipment, well-drilling, consulting services, and minor associated miscellany. The second, groundwater / surfacewater modeling project (\$140,000) to analyze existing and future groundwater datasets to build a 2D/3D conceptual model that will allow for broad collaboration across industry professionals and user-friendly interpretation of groundwater issues for local stakeholders and policy makers. Funds will be used for consultant work of data analysis and modeling.

Charges for Services

The decrease of \$502,354 in Charges for Services is in the General Fund and the majority of that is two main areas. Based on trends, District Court's revenue estimate was reduced by \$277,000. Additionally, with the elimination of the SWAP program in the Jail, the revenue budget was reduced by \$300,000, but this is offset by a greater reduction in expenses.

Transfers In

The total change in the budget for Transfers In is \$1.3 m, which is accumulated in increases in some funds and decreases in other funds. The changes are explained in more detail below.

The General Fund transfer in increased by \$840,000 and \$210,000 from the Internal Service DB/DC Fund for the increase retirement cost and the Other Post Employee Benefit Trust to offset the cost of health insurance respectively.

Park and Recreation Fund transfer from the General Fund increased by \$179,000 to fund the increase in the Administrative Cost Allocation Plan. This was budgeted for the first time in 2020 to show true cost of services provided by the County and, both transfer and administrative charge increased in 2021.

With the increased bed rental revenue and changes in the State payment model for the Child Care Fund, the transfer from the General Fund was reduced by \$900,000 in fiscal year 2021.

In 2020, the Health Fund received one-time revenues in the amount of \$1m as settlement for cost based reimbursement program and the General Fund contribution was decreased. Therefore, in 2021, the General Fund contribution of \$1m had to be reinstated, as well as an additional \$700,000 contribution to cover the increased costs of the operation, for a total increase of \$1.7million.

The Debt Fund has budgeted an increase of \$350,000 to fund the anticipated increase in the debt payments in 2021, including approximately \$60,000 for the marina bonds issued during 2020.

The Capital Project Fund's transfer decreased by \$1.2 m because the Board of Commissioners transferred General Fund fund balance in excess of policy requirements during Fiscal Year 2020.

Total Expenditures	196,582,884	205,805,327	9,222,443	

Salaries and Wages

The 3.61% increase reflects a budgeted 2% COLA increase for the bargaining groups and other employee classifications as well as the anticipated step increases for employees.

Benefits

Compared to the 2020 adopted budget, benefits increased by a relatively low amount; \$820,880 or 2.33%. The positive trend for 2021 is due to health insurance and retirement contributions.

Health Insurance: Although the 2020 budget was adopted with an estimated 3% increase in health insurance the premiums only increased by 1%. In 2021, starting with the lower premium, health insurance was increased by 3% again this year, but the savings experienced in 2020 will lower the percent increase when comparing the 2020 adopted budget to 2021 budget estimates.

Retirement: In 2019 the Board of Commissioners extended the amortization of the unfunded defined benefit liability from 10 to 15 years. MERS updated the County's contribution rate and the impact, which slowed the rate of growth, is reflected for the first time in fiscal year 2021. The 2021 payroll percentage dedicated to the unfunded liability is 17.16%, up from 15.47% in 2020.

Contracted Services.

The increase in contract services is the expenditure side of increased Intergovernmental revenue. CMH increases in Medicaid will be budgeted for client care in contractual services. The same is true for the Planning and Performance Improvement groundwater initiative.

Indirect Expense

The decrease in indirect expenditures is all related to the reduction in both the Administrative Cost Allocation Plan as well as the I/T Cost Plan that are charged back to departments for services provided by various departments throughout the County (I/T, H/R, Fiscal, Facilities, Administration). As costs fluctuate, the amount allocated will too. For example, the County partnered with the City of Zeeland and Port Sheldon to pay legal expenses related to Consumer Energy appeals. With the expense decline, the allocation will also decline.

Contribution to Component Units

As the authorizing authority, the Board of Commissioners establishes the County millage rate, including the Ottawa County Dispatch Authority and Road Commission. Taxes collected are immediately disbursed to the separate organizations. As a pass-thru, all increases in this category have a corresponding increase in revenue.

Contingency

To validate market and maintain equity in the County's pay structure, the Board approved a contract in fiscal year 2020 to prepare a wage and classification study. The increase in contingency is a placeholder to fund the final recommendations as a result of the study.

CONCLUSION

Ottawa County remains committed to achieving its Vision Statement of being the place *where you belong*. The 2021 Proposed Annual Budget represents a fiscally responsible spending plan that

balances the Board's direction of providing citizens and businesses exemplary levels of service at reasonable expense, while continuing to address regulatory compliance.

The preparation of the 2021 County of Ottawa Budget was made possible through the collaboration efforts of the various County employee's, Elected Officials and Judges, Department Heads, Agency Directors, Fiscal Service staff and all others involved in the budget preparation process. With their input, the successful 2021 budget process has been achieved.

Sincerely,

Alan G. Vanderberg County Administrator Karen Karasinski, CPA Fiscal Services Director

County of Ottawa General Fund (1010) Budget Summary

Budget Year Ending September 30, 2021

The General Fund is used to account for all revenues and expenditures applicable to general operations of the County except for those required or determined to be more appropriately accounted for in another fund. Revenues are derived primarily from property tax, intergovernmental revenues and charges for services

Homestead Property Tax (2550)

Special Revenue Fund Budget Summary

Budget Year Ending September 30, 2021

This fund was established as a result of the passage of Public Act 105 of 2003 which provides for the denial of homestead status by local governments, counties, and/or the State of Michigan. The County's share of interest on tax revenue collected under this statute is to be used solely for the administration of this program, and any unused funds remaining after a period of three years may be transferred to the County's general fund (MCL 211.7cc, as amended).
