2182	12/26/2023	01/16/2024	PARKS AND RECREATION	CROWE LLP	\$49,950.00	NO	EXPENSE	<p>The land acquisition strategy that the OCPRC developed over time focused on four "greenway" corridors within the County</p> <p>(the Grand River, Lake Michigan Coastal, Macatawa River, and Pigeon River Greenways) and successfully helped to drive approval of a 0.33 Parks Millage in 1996 and two subsequent renewals in 2006 and 2016. The last update to the mission statement was in 2010. Over time, the OCPRC's goals within the various iterations of the Parks, Recreation, and Open Space Plan (which focuses on land acquisition and facility development and has typically been updated every five years) have evolved and broadened as the Parks Department has expanded and varied its offerings. While the Parks, Recreation, and Open Space plan highlights many of the various initiatives of the OCPRC in some way, it does not fully account for the strategic needs of the entire OCPRC and its significant supporting organizations. Additionally, there is no record of a previous formal, comprehensive strategic planning process. Furthermore, many organizations rely on a vision and values statement in addition to a mission statement. As the OCPRC prepares for the 2026 millage renewal and reviews its long-term goals with the completion of many of its original acquisition goals, it is an opportune time to embark on a comprehensive strategic planning process. Once completed, the strategic plan would guide us into the 2026 Parks, Recreation, and Open Space Plan and other initiatives of various parks divisions. The combined documents will then be an important tool for the millage renewal campaign.</p>

It will also provide a more streamlined new device setup experience for employees. It is an industry best practice to have MDM software on corporate owned devices and it is needed for compliance with the FBI/MSP's Criminal Justice Information Services (CJIS) rules and regulations.
