Although Medicaid in Michigan is administered by the Michigan Department of Community Health, Medicaid eligibility is determined by DHS according to an individual's or family's income and assets. There are over 30 different Medicaid categories in Michigan to help low-income families and individuals access the medical care they need. Coverage may begin three months before an application month. Eligible clients receive a MI-Health Card, which verifies Medicaid eligibility for medical providers. This is a federal and state funded program.

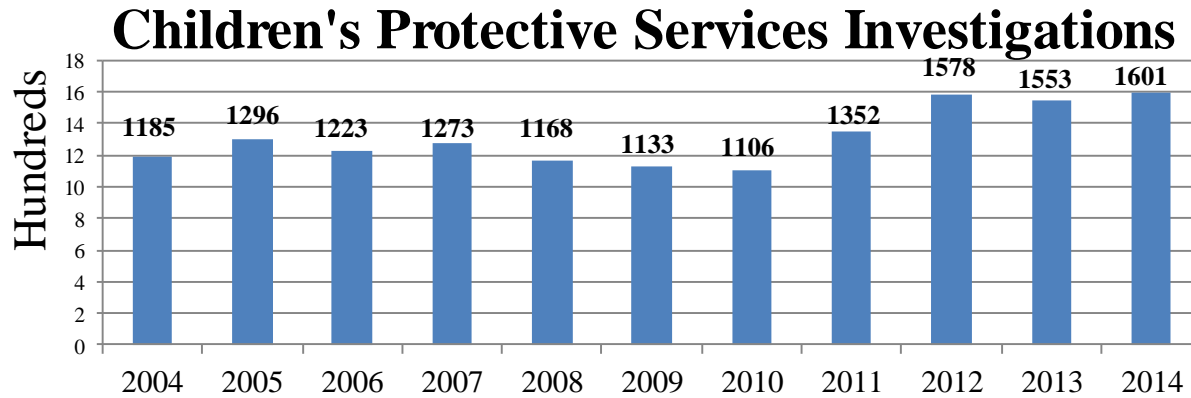

At the end of 2014, Ottawa County had 31,090 individuals active for Medicaid.

Children's Protective Services (CPS) investigates or remedies abuse, neglect or exploitation of children under the age of 18 when the alleged perpetrator is a parent, legal guardian or an adult who is responsible for the child's health or welfare. Anyone may make a complaint if abuse or neglect is suspected by contacting Centralized Intake. DHS has only investigative authority, enforcement authority is with the police and the courts.

Foster Care Cases-Monthly Average

The Children's Foster Care staff provides placement, supervision and monitoring services for children in foster care who cannot remain in their own homes due to abuse or neglect. A primary goal of the foster care staff is to reunite children with their families. If this is not possible, workers will petition the courts to have parental rights terminated and adoption may become the goal. Funding is provided by a combination of federal, state and/or county appropriations depending on the family's eligibility.

In 2014, Ottawa County DHS averaged 188 children in foster care.

Adult Protective Services Investigations

Adult Protective Services Specialists investigate allegations of abuse, neglect or exploitation and provide protection to vulnerable adults (persons 18 years or older). Investigators coordinate with mental health, public health, law enforcement, the probate courts, the aging network, community groups and the general public to take the necessary steps to correct their abuse/neglect situation.

Independent Living Services

Adult Independent Living Services provides case management, home-help services, and supported services to enable individuals to remain in their own homes as an alternative to nursing home or institutional placement.
