Families with children and pregnant women must meet income and asset requirements as well and other eligibility standards including (but not limited to): time on assistance, work participation requirements, school attendance and child support requirements.
- Applicants for cash assistance are required to take part in a work participation program in conjunction with Michigan Works called PATH (Partnership, Accountability, Training & Hope). The program features a 21-day assessment period during which barriers to employment are identified and caseworkers work individually with clients to connect them with resources to address these barriers.

Individuals on Medicaid

Medicaid provides necessary health care services to cash and SSI recipients and other low-income, medically-needy persons who are; under the age of 21; pregnant; disabled; blind; or age 65 and older. Although Medicaid in Michigan is administered by the Michigan Department of Community Health, Medicaid eligibility is determined by DHHS according to an individual's or family's income and assets. There are over 30 different Medicaid categories in Michigan to help low-income families and individuals access the medical care they need. Coverage may begin three months before an application month. Eligible clients receive a MI-Health Card, which verifies Medicaid eligibility for medical providers. This is a federal and state funded program.

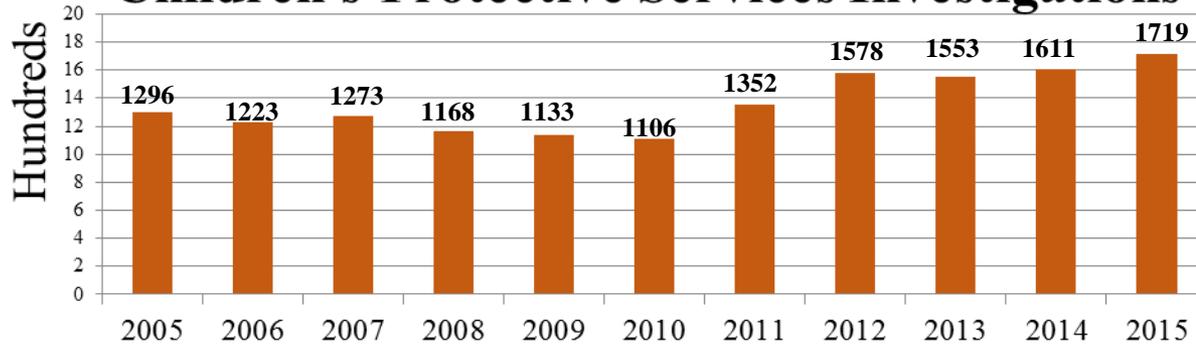

At the end of 2015, Ottawa County had 29,904 individuals active for Medicaid. Recent Data shows that Ottawa County has 7,779 individuals enrolled in Healthy Michigan Plan (HMP).

Anyone may make a complaint if abuse or neglect is suspected by contacting Centralized Intake. DHHS has only investigative authority, enforcement authority is with the police and the courts.

In 2015, Ottawa County DHHS received 3,126 CPS referrals.

Of that number, 1719 (55%) were assigned for abuse/neglect investigations, 14% were substantiated and 4% were petitioned to the court.

Foster Care Cases-Monthly Average

The Children's Foster Care staff provides placement, supervision and monitoring services for children in foster care who cannot remain in their own homes due to abuse or neglect. A primary goal of the foster care staff is to reunite children with their families. If this is not possible, workers will petition the courts to have parental rights terminated and adoption may become the goal. Funding is provided by a combination of federal, state and/or county appropriations depending on the family's eligibility.
