Ottawa County, the eighth-largest county in Michigan, is a beautiful community of 263,801 people located along the Lake Michigan shoreline. The government that serves the community is comprised of approximately 1,100 employees and elected officials with occupations as diverse as nursing, parks, corrections, administration, and law enforcement.

An 11-member Board of Commissioners, each elected to a two-year term, governs the County. The Board of Commissioners establishes the general direction of government and provides oversight of administrative functions of the County. The Board appoints a County Administrator who manages the budget, provides leadership and management of Board initiatives, and oversees general County operations. The remaining operations are managed by either elected officers (Clerk, Drain Commissioner, Prosecutor, Register of Deeds, Sheriff, and Treasurer), statutory boards (Community Mental Health), or the judiciary.

While the Board of Commissioners had conducted strategic planning activities in the past, the County had not had an active strategic plan, mission, or organizational values in place for several years, so in 2004 the Board began collecting information needed to develop a plan. This included the employee and resident surveys, a study of mandated services, employee input on the mission statement, evaluations of several departments, a wage and classification study, the United Way Community Needs Assessment, and definitions of the County’s financing tools.

After collecting and considering this information, the Board met on March 23 and 24, 2006, to begin work on its strategic plan. That initial plan was adopted and implemented over the next two years. The Board now meets annually to review the strategic plan and develop an accompanying business plan comprised of objectives that serve as action steps toward achieving the strategic plan.

The Board of Commissioners met on February 25, 2011, to create the business plan for 2011. This involved an update of objectives for 2010 and a review of the strengths, weaknesses, opportunities, and threats (SWOT) facing the County. After the Board established draft objectives, Administration assigned resources to each objective, and developed outcome measures which will indicate success in completing the plan’s goals. The results of the process follow.
A **VISION** statement indicates how an organization views its ideal, or ultimate, goal. The Board of Commissioners has established the following vision statement:

Ottawa County strives to be the location of choice for living, working, and recreation.

A **MISSION** statement assists an organization in easily communicating to a variety of constituencies what it does, who it serves, and why it does so. The Board of Commissioners has established the following mission statement:

Ottawa County is committed to excellence and the delivery of cost-effective public services.

**GOALS** focus the direction of an organization’s work, under the guidance from the vision and mission statement. Goals are relatively static in nature and will not often change. The four goals of the Board of Commissioners are:

1. To maintain and improve the strong financial position of the County.
2. To maintain and enhance communication with citizens, employees and other stakeholders.
3. To contribute to a healthy physical, economic and community environment.
4. To continually improve the County’s organization and services.
A formal statement of organizational values was developed to clearly identify not only the principles upon which the organization is based, but the way in which it treats its employees and residents.

We recognize the importance of the **Democratic Process** in the accomplishment of our mission, and hold it as a basic value to respect the rule of the majority and the voted choices of the people; to support the decisions of duly elected officials; and to refrain from interference with the elective process.

We recognize the importance of the **Law** in the accomplishment of our mission and hold it as a basic value to work within, uphold, support, and impartially enforce the law.

We recognize the importance of **Ethics** in the accomplishment of our mission and hold it as a basic value to always act truthfully, honestly, honorably and without deception; to seek no favor; and to receive no extraordinary personal gain from the performance of our official duties.

We recognize the importance of **Service** in the accomplishment of our mission and hold it as a basic value to treat each resident as a customer; to do all we can, within the bounds of the County's laws, regulations, policies and budget, to meet requests for service.

We recognize the importance of **Employees** in the accomplishment of our mission and hold it as a basic value to treat each employee with professional respect, recognizing that each person using his or her trade or vocation makes a valuable contribution; to treat each employee impartially, fairly and consistently; and to listen to the recommendations and concerns of each.

We recognize the importance of **Diversity** in the accomplishment of our mission and hold it as a basic value to treat all people with respect and courtesy.

We recognize the importance of **Professionalism** in the accomplishment of our mission and hold it as a basic value that each employee will perform to the highest professional standards and to his or her highest personal capabilities.

We recognize the importance of **Stewardship** of public money in the accomplishment of our mission and hold it as a basic value to discharge our stewardship in a responsible, cost-effective manner, always remembering and respecting the source of the County’s funding.
While goals are relatively static in nature, the objectives that assist in accomplishing the goals are likely to change annually. Deliverables are items that give further meaning and substance to an objective. Outputs are specific items of action and outcome indicators are a measure of success, demonstrating the impact of actions conducted to achieve goals and objectives.
Prior to setting goals, members of the Board of Commissioners examined the strengths, weaknesses, opportunities, and threats affecting the County as a whole. The items in each category are not ranked by importance, nor is this intended to be an all-inclusive list, however it forms a basis for the development of goals and objectives. In addition, the items identified provide a view of potential issues that may impact the environment in which the County provides services in the near- or long-term future.
