September 14, 2020

Dear Colleagues,

With children returning to school for what will be a challenging year for everyone, new guidelines and protocols are currently in place to help ensure the health and safety of all students and staff. Although we are all hoping for an uneventful year we know that COVID-19 will remain a definite threat for the next several months and because of this we will need your assistance in making these guidelines work.

Based on current recommendations, any individual experiencing symptoms of COVID-19 will be excluded from school until:

1) An alternative diagnosis is given by the person’s health care provider or
2) The person tests negative for COVID-19.

Without one of these two conditions being met, COVID-19 cannot be ruled out and the individual will be required to self-isolate at home for 10 days before returning to school.

Your early attention to these individuals will (1) help with the early identification of COVID-19 or (2) the early return to school for children/staff with a non-COVID-19 diagnosis.

Attached to this letter is a list of current testing sites and upcoming testing events scheduled for Ottawa County.

Thank you for your assistance. If you have questions please contact me at 616-494-5548.

Sincerely,

Paul A. Heidel, MD, MPH
Medical Director
Ottawa County Department of Public Health
If you have insurance:
- Under the CARES Act, your testing will be covered.
- If you are asymptomatic or have been in contract with someone with COVID-19, your testing will be covered.

If you are uninsured:
- If you have health insurance, you are required to submit your insurance.
- You are required to submit your insurance.

The current market rate for the COVID-19 test is $51.00. Your plan does not pay for the test. The lab may send you a bill.

Intercare does not collect out-of-pocket fees.

Treatment for those without health insurance:
- Charged to a special program covering COVID-19 testing and treatment for those without health insurance. The COVID-19 testing will be covered.
- Charged to a special program covering COVID-19 testing and treatment for those without health insurance. The COVID-19 testing will be covered.

For those with health insurance, the lab will bill your insurance.

If you have health insurance, the lab will bill your insurance. If you don't, you will be billed.
